**Introduction**

Adolescent girls and young women are a priority within the DREAMS mandate and in all advocacy efforts and programmes worldwide. In South Africa, 41% of the population is made up of young people between the ages of 14 and 35 years. The South African National Youth Policy places a commitment towards prioritising the needs of young people with respect to education, health and well-being, economic participation and social cohesion.

The World Health Organization estimated that 36.7 million people were living with HIV in 2015. Sub-Saharan Africa is the most severely affected region, accounting for nearly 70% of people living with HIV worldwide.

It is within this context that in September 2015 the international community committed to ending AIDS by 2030, as part of the Sustainable Development Goals (SDGs). In support of this objective, the U.S. President's Emergency Plan for AIDS Relief (PEPFAR) and supporting organisations, including Johnson & Johnson, launched DREAMS, which is an ambitious \$385 million partnership to reduce HIV infections among adolescent girls and young women in 10 sub-Saharan African countries.

Girls and young women account for 74 percent of new HIV infections among adolescents in sub-Saharan Africa. The 10 DREAMS countries including South Africa account for more than half of all the new HIV infections that occurred among adolescent girls and young women globally in 2015. The goal of DREAMS is to help girls develop into Determined, Resilient, Empowered, AIDS-free, Mentored and Safe women.

Within this framework, Johnson & Johnson facilitated workshops focused on insight generation with adolescent girls and young women in nine DREAMS countries in 2016. Feedback from these workshops outlined three principal areas which the girls felt needed to be addressed to instil behaviour change and decrease engagement in risky sexual behaviour. These areas were on employment and employability, leadership skills and sexual and reproductive health. Against this background Johnson and Johnson and UNFPA South Africa Country Office entered into a public-private partnership in June 2017 to implement the DREAMS Thina Abantu Abasha (DREAMS TAA) Programme in KwaZulu-Natal and Gauteng. The purpose of the Programme is to build on the existing PEPFAR DREAMS project and contribute towards the goal of reducing HIV infection amongst Adolescent Girls and Young Women (AGYW).

As a result, Johnson and Johnson in partnership with UNFPA has contracted six Youth from KZN and two Youth from Gauteng to form the official Youth Leadership Team (YLT), to lead the development, implementation and measure the impact of a youth created and led DREAMS Amplification program. The Data Capturer will form a crucial part of the overall Youth Team, ensuring the designed program is implemented and measured in accordance to the pre-defined criteria that will enable the program to yield a successful outcome.

### **Data Capturer**

Johnson & Johnson, in partnership with UNFPA and the relevant provincial and district partners are recruiting a Data Capturer.

The Data Capturer position will report to the Johnson and Johnson M&E Specialist, under the leadership of the YLT.

The purpose of the Data Capturer is to capture and process DREAMS TAA programme implementation data, and participation as well as to produce reports from the two Gauteng DREAMS districts; City of Johannesburg and Ekurhuleni.

The Data Capturer demonstrates a shift away from working for young people, to empowering young people to ensure youth-friendly approaches and action.

### **Purpose of the Data Capturer**

The Data Capturer will review and capture all the data collected by the Program Trainers and Peer Educators within the three DREAMS districts, as outlined by the Measurement and Evaluation Plan. The Data Capturer will be based within the priority districts and will receive ongoing guidance and oversight within the DREAMS TAA programme governance structure.

Specifically, the **objectives** of the Data Capturer are to:

- Train and equip the Program Trainers to accurately capture the pre-defined data for all participating youth to the DREAMS TAA program within the three target districts, i.e., City of Johannesburg and Ekurhuleni.
- Collect all M+E data directly from the Program Leaders within the two districts where the DREAMS TAA program will be deployed
- Accurately capture all the M+E data collected from the Program Leaders into a pre-designed platform/system
- Submit accurately captured M+E data to the external Measurement and Evaluation Specialist on a bi-weekly cycle
- Assist the external Measurement and Evaluation Specialist with data refinement and report compilation that will track the participation and impact of the DREAMS TAA program
- Contribute towards the DREAMS goal of reducing HIV infection amongst Adolescent Girls and Young Women (AGYW) by 40%.

**The expected results from having the Data Capturer are:**

- Provide evidence that showcase the success of the Youth-led programme deployment and implementation that demonstrates enhanced meaningful participation of young people;
- Provide evidence that showcase Youth leadership skills enhanced;
- Provide evidence that showcase the cascade of Young people being exposed to meaningful employment experiences;
- Total reach of 70 000 Adolescent Girls and Young Women (AGYW) aged 15-24yrs. within the targeted districts of Gauteng.

**Roles and Responsibilities of the Data Capturer**

- Ensure the data capturing tools and material is readily available to the Program Trainers and Peer Educators in all three participating districts within Gauteng
- Train the Program Trainers and Peer Educators on the correct data collection method in accordance to the data collection guideline
- Bi-weekly collection of data from the Program Trainers within the three districts
- Accurately capturing the data collected from each Program Trainer within the pre-designed platform/system
- Bi-weekly submission of collected data to the external Measurement and Evaluation Specialist
- Assisting the external Measurement and Evaluation Specialist with compiling progress reports on the overall success of the DREAMS TAA program aligned to desired and pre-defined outcomes
- The Data Capturer is expected to be available during pre-specified and agreed contact hours.

**Duration of the programme**

The Data Capturer will serve for a period of five months, from August 2018 to December 2018, subject to ongoing performance reviews.

**Stipend**

- Stipend of the Data Capturer will be ZAR R5000.00 (five thousand Rand) per month.

**Applications for the Data Capturer**

Johnson & Johnson in partnership with UNFPA invite applications for the Data Capturer from young people who meet the following criteria:

- Aged 20-24 as at 1 July 2018
- Minimum educational requirement would be a Matric (Grade 12) certificate with current studies within the financial / analytical fraternity with strong Excel capabilities
- Resident within one of the local communities, City of Johannesburg or Ekurhuleni North.
- An active member of your community with a passion for youth development and previous experience in data collection and capturing

- Affiliated to one or more youth organisations / networks, i.e. representing a constituency of some kind (faith-based, disability, educational, skills development, gender, leadership, living with HIV, sports, rural development, etc).

### **Criteria for selection**

A panel convened by Johnson & Johnson and UNFPA will review all applications and select shortlisted applicants for interview. No correspondence will be entered. Preference will be given to applicants from the two priority districts who are active in their communities. Applicants will be chosen to represent a diversity of interest groups, networks and constituencies, and preference will be given to applicants with teamwork qualities, leadership experience, communication skills, innovative approaches and commitment to furthering youth development.

### **How to apply**

Interested applicants are requested to submit the following to [zaf.admin@unfpa.org](mailto:zaf.admin@unfpa.org).

- Indicate position applying for and area of residence
- Letter of motivation
- CV
- Letter of support / endorsement from a local community based organisation/s to which you are affiliated.

**Closing date: 6 July 2018**

### **Communication with prospective applicants**

After the above-mentioned closing date, communication will be limited to shortlisted applicants only. Should you not hear from us after two weeks from the closing date, kindly consider your application as unsuccessful. For any enquiries regarding these terms of reference please do not hesitate to contact UNFPA at [zaf.admin@unfpa.org](mailto:zaf.admin@unfpa.org).
